Description of Collection:

Record Group: Auxiliary Agent

Sub Group: Miss. Cooperative Extension Service- Community Development Department

Inclusive Dates: 1910-1971

Location: Cage 7

Description: These Community Development Department files have been divided into four series: (1) Area Redevelopment Administration (ARA), (2) Overall Economic Development Program (OEDP), (3) Rural Areas Development (RAD), and (4) History of Extension. The History of Extension series is divided into three subseries: (1) General, (2) Rural Development, and (3) Subject Files.

The ARA, OEDP, and RAD are interrelated programs coordinated by the Community Development Department of Extension Service. These files are especially valuable as a chronicle of economic development programs in Mississippi counties during the 1960's. They also provide information on the types of assistance programs available and how they are administered. For information on the three programs, see folder R-33, Box 10. For complete content description see folder list.

The history of the Extension files were apparently collected for research purposes in the preparation of various studies on the history of the Extension Service in Mississippi. While there is much valuable information here, many of the

items, especially the research notes, are not identified as to purpose or use. The files were in such disarray that a thorough reorganization was required. See the folder list for details.

The files in this accession have been arranged thusly:

1. ARA: Folders A-1-41: Box 1
2. OEDP: Folders O-1 to O-22: Box 2
